GCSE TUTORING.

At Aldridge Premier Tuition Limited, we currently offer tuition in English, Maths and Science to GCSE students in years 7 and 11. We tailor each individuals programme according to their personal needs.

Factors affecting a students programme might include the examining board, the level (Foundation, or Higher), mock test results and target grades. Along with this information, we ask students to initially provide us with a list of topics that they feel they are weak in or need further practise with.

Each student works with the assistance of their fully qualified tutor. We find that this system works well for the student allowing them to have the personal support of a teacher unlike the Internet, CD-ROMs or revision books. It also avoids the highly vulnerable one-to-one situation in your house or a tutor's house.
